The Mission of the Authority

The mission of the Authority, as stated in its enabling legislation, is as follows:

Policy.--It is hereby declared to be a public policy of the Commonwealth to exercise its retained sovereign powers with regard to taxation, debt issuance and matters of Statewide concern in a manner calculated to foster the fiscal integrity of cities of the first class to assure that these cities provide for the health, safety and welfare of their citizens; pay principal and interest owed on their debt obligations when due; meet financial obligations to their employees, vendors and suppliers; and provide for proper financial planning procedures and budgeting practices. The inability of a city of the first class to provide essential services to its citizens as a result of a fiscal emergency is hereby determined to affect adversely the health, safety and welfare not only of the citizens of that municipality but also of other citizens in this Commonwealth.

Legislative intent.--

(1) It is the intent of the General Assembly to:

(i) provide cities of the first class with the legal tools with which such cities can eliminate budget deficits that render them unable to perform essential municipal services;

(ii) create an authority that will enable cities of the first class to access capital markets for deficit elimination and seasonal borrowings to avoid default on existing obligations and chronic cash shortages that will disrupt the delivery of municipal services;

(iii) foster sound financial planning and budgetary practices that will address the underlying problems which result in such deficits for cities of the first class, which city shall be charged with the responsibility to exercise efficient and accountable fiscal practices, such as:

(A) increased managerial accountability;

(B) consolidation or elimination of inefficient city programs;

(C) recertification of tax-exempt properties;

(D) increased collection of existing tax revenues;

(E) privatization of appropriate city services;

(F) sale of city assets as appropriate;

(G) improvement of procurement practices including competitive bidding procedures; and

(H) review of compensation and benefits of city employees; and

(iv) exercise its powers consistent with the rights of citizens to home rule and self government.

(2) The General Assembly further declares that this legislation is intended to remedy the fiscal emergency confronting cities of the first class through the implementation of sovereign powers of the Commonwealth with respect to taxation, indebtedness and matters of Statewide concern. To safeguard the rights of the citizens to the electoral process and home rule, the General Assembly intends to exercise its power in an appropriate manner with the elected officers of cities of the first class.

(3) The General Assembly further declares that this legislation is intended to authorize the imposition of a tax or taxes to provide a source of funding for an intergovernmental cooperation authority to enable it to assist cities of the first class and to incur debt of such authority for such purposes; however, the General Assembly intends that such debt shall not be a debt or liability of the Commonwealth or a city of the first class nor shall debt of the authority payable from and secured by such source of funding create a charge directly or indirectly against revenues of the Commonwealth or city of the first class.

Balanced Budgets for the City of Philadelphia

As the Pennsylvania Intergovernmental Cooperation Authority (“PICA”) marks its eleventh anniversary, we are pleased to provide you with this Annual Report for the fiscal year ended June 30, 2002 (“FY02”). In 1991, the City of Philadelphia (“City”) faced a deficit of \$137 million, a lagging capital investment program, and lacked a coherent fiscal planning mechanism. At the end of Fiscal Year 2002, the City boasts a preliminary budget surplus of over \$194 million, a stronger capital replacement and maintenance program, and the continued success of the annual Five-Year Financial Plan required by PICA. Though the City faces challenges, including a struggling economy, and an underperforming Pension Fund, we remain confident in PICA’s ability to help the City maintain a positive fiscal outlook.

Even after eleven years, PICA continues to have a significant role in the ongoing City financial recovery. FY02 activity included (1) the approval of a Five-Year Financial Plan for Fiscal Years 2003 through 2007 which anticipates balanced budgets and tax reductions in each component year; (2) monitoring Five-Year Financial Plan compliance; (3) continuing review and monitoring of the City’s operations; (4) oversight as to utilization of remainder moneys borrowed by PICA for City capital projects, productivity enhancements and indemnity costs (deficit reduction); and (5) service as the primary independent source of objective information and opinion for the benefit of the citizens of the City and the Commonwealth as well as for the media, the financial community and other outside observers.

The PICA Board has been gratified by the recognition PICA regularly receives from the financial community and the media for its successful performance as the agency charged with the responsibility for oversight and monitoring of the City's finances. We would be remiss if we failed to acknowledge and express our sincere appreciation for the continuous support PICA receives from the Governor and the General Assembly, and also for the ongoing cooperation of Philadelphia's Mayor, City Council and City Controller. That support and cooperation are vital factors to PICA's continuing success and the City's ongoing financial recovery.

PICA Annual Report Requirements

The Pennsylvania Intergovernmental Cooperation Authority Act for Cities of First Class, Act of 1991, P.L. 9, No. 6 at §203(b)(5) requires PICA:

To make annual reports within 120 days of the close of the Authority's fiscal year commencing with the fiscal year ending June 30, 1992, to the Governor and the General Assembly describing its progress with respect to restoring the financial stability of assisted cities and achieving balanced budgets for assisted cities, such reports to be filed with the Governor, with the presiding officers of the Senate and the House of Representatives, with the Chairperson and the Minority Chairperson of the Appropriations Committee of the Senate and the Chairperson and the Minority Chairperson of the House of Representatives and with the Governing Body, Mayor and Controller of the assisted city.

§207 of the Act further provides for an annual audit to be included with the Annual Report, as follows:

Every Authority shall file an annual report with the Chairperson and the Minority Chairperson of the Appropriations Committee of the Senate and the Chairperson and the Minority Chairperson of the Appropriations Committee of the House of Representatives, which shall make provisions for the accounting of revenues and expenses. The Authority shall have its books, accounts and records audited annually in accordance with generally accepted auditing standards by an independent auditor who shall be a certified public accountant, and a copy of his audit report shall be attached to and be made a part of the Authority's annual report. A concise financial statement shall be published annually in the Pennsylvania Bulletin.

Overview - PICA and its Role

PICA Act

The Pennsylvania Intergovernmental Cooperation Authority ("PICA") was created in 1991 to assist the City of Philadelphia (the "City") in overcoming a severe financial crisis. At that time the City was burdened with a growing cumulative operating deficit, lacked resources to pay mounting overdue bills from vendors, had been pushed below the investment grade level by national rating agencies, had instituted an across-the-board hiring freeze, was in a mode in which the quality of municipal services being provided was rapidly eroding, and verged on bankruptcy. PICA was created through the joint efforts of concerned Philadelphians and State officials who envisioned a structure which would assist the City in putting its revenue collection and spending processes in order, and at the same time reach a consensus on its future priorities, assets and limitations. The PICA Act was a compromise fashioned to meet the requirements of the Pennsylvania Constitution, the concept of local government Home Rule, and the interests of the State in the preservation of the financial integrity of its municipalities. PICA's role, a combination of cooperation, assistance and oversight was determined to be of vital importance in both a financial and political sense. It was designed to be a catalyst in the City re-evaluation of the role and priorities of municipal government.

Cooperation Agreement

The Intergovernmental Cooperation Agreement negotiated by and between PICA and the City and finalized in January of 1992 formalized the relationship contemplated by the PICA legislation. The powers and duties of the respective participants envisioned in the legislation were put into place with the execution of the Agreement. PICA was designed to be much more than a vehicle to raise otherwise unavailable funds for Philadelphia. It has the responsibility to evaluate and approve annually revised Five-Year Financial Plans, to monitor compliance by the City with such Plans, and the power to withhold both substantial Commonwealth financial assistance and the net proceeds of the PICA Tax (after PICA debt service) should the City fail to comply with its duty to balance such Plan in each of its years.

The PICA Organization

The Authority Board determined at the outset that PICA should not become overburdened with staff, preferring instead to impress upon the City the necessity for Philadelphia to develop and implement its own solutions to its problems. The Authority's staff, which totals six, is organized to evaluate the actions of the City and to issue appropriate reports thereon to assist those who are properly charged with administration of City affairs or development of underlying policies.

PICA Financial Assistance to the City

The issuance of bonds to provide the funds directly required to assist the City to avoid insolvency and for essential capital programs was an important initial role of the Authority. That role has been successfully completed and the Authority's "new money" bond issuance powers have expired. Authority bond issuance is currently limited to refinancing existing Authority debt in order to realize net debt service savings to the City.

Through debt issuance and capital program earnings the Authority has provided in excess of \$1,152 million to directly assist the City, allocated to the following purposes:

<u>Purpose</u>	<u>Amount (thousands)</u>
Deficit Elimination/Indemnities Funding	\$ 256,200
Productivity Bank	20,000
Capital Projects	494,584
Retirement of Certain High Interest City Debt	<u>381,300</u>
TOTAL	<u>\$1,152,084</u>

The Five-Year Financial Plan Process

PICA has consistently emphasized its firm belief that the City's continuing fiscal rehabilitation is dependent upon its continuing success in addressing both financial and managerial issues; that the process is less one dealing with finance than assessing the financial results of managerial decisions. Effective strategic planning and the institutionalization of change are matters which the City must continue to focus upon in order to assure that its considerable assets continue to be applied intelligently and consistently. The Plan process helps to document the City's intentions and the results of its actions.

As mandated in the PICA Act (and as further refined by the Intergovernmental Cooperation Agreement), the Plan is required to include:

- Projected revenues and expenditures of the principal operating funds of the City for five fiscal years (the current fiscal year and the next four); and
- Components to (i) eliminate any projected deficit for the current fiscal year; (ii) restore to special fund accounts money from those accounts used for purposes other than those specifically authorized; (iii) balance the current fiscal year budget and subsequent budgets in the Plan through sound budgetary practices, including, but not limited to, reductions in expenditures, improvements in productivity, increases in revenues, or a combination of such steps; (iv) provide procedures to avoid a fiscal emergency condition in the future; and (v) enhance the ability of the City to regain access to the short- and long-term credit markets.

There also are statutorily mandated standards for development of the Plan (and the manner in which it is to be evaluated by PICA):

- all projections of revenues and expenditures are to be based upon consistently applied reasonable and appropriate assumptions and methods of estimation;
- revenues are to be recognized in the accounting period in which they become both measurable and available; and

- cash flow projections are to be made based upon reasonable and appropriate assumptions as to sources and uses of cash, including factors intended to provide a complete picture of cash demands.

The PICA Act also mandates standards for the basis for estimation of City revenues:

City Sources - current or proposed tax rates, historical collection patterns, and generally recognized econometric models;

State sources - historical patterns, currently available levels, or on levels proposed in a budget by the Governor;

Federal sources - historical patterns, currently available levels, or levels proposed in a budget by the President or in a Congressional budget resolution; and

Non-tax sources - current or proposed rates, charges or fees, historical patterns and generally recognized econometric models.

Deviations from such standards for estimation of revenues and appropriations which are proposed to be used by the City are to be disclosed specifically to the Authority and approved by a "qualified majority" of the Authority (four of its five appointed members). The Authority's Board generally has required that conservative criteria be used, and the result of the PICA process has been credible budget and Plan-making.

The Plan is also required to include a schedule of projected City capital commitments (and proposed sources of funding), debt service projections for existing and anticipated City obligations, a schedule of payments for legally-mandated services projected to be due during the term of the Plan and a schedule showing the number of authorized employee positions (filled and unfilled), inclusive of estimates of wage and benefit levels for various groups of employees.

The PICA Act requires that the Authority solicit an opinion or certification from the City Controller, prepared in accordance with generally accepted auditing standards, with respect to the reasonableness of the assumptions and estimates in the Plan. The PICA Act does not, however, require that the Controller's determinations bind the Authority in its evaluation of a proposed Plan.

The PICA Act (§209) and the Cooperation Agreement (§409(b)) require submission of quarterly reports by the City concerning its compliance with the current Plan within 45 days of the end of a fiscal quarter. If a quarterly report indicates that the City is unable to project a balanced Plan and budget for its current fiscal year, the Authority may by the vote of a qualified majority declare the occurrence of a "variance", which is defined in §4.10 of the Cooperation Agreement as follows:

- (i) a net adverse change in the fund balance of a Covered Fund of more than one percent (1%) of the revenues budgeted for such Covered Fund for that fiscal year is reasonably projected to occur, such projection to be calculated from the beginning of the fiscal year for the entire fiscal year, or

(ii) the actual net cash flows of the City for a Covered Fund are reasonably projected to be less than ninety-five percent (95%) of the net cash flows of the City for such Covered Fund for that fiscal year originally forecast at the time of adoption of the budget, such projection to be calculated from the beginning of the fiscal year for the entire fiscal year.

As defined in §1.01 of the Cooperation Agreement, the City's "Covered Funds" are the General Fund, General Capital Fund, Grants Revenue Fund and any other principal operating funds of the City which become part of the City's Consolidated Cash Account.

The Effect of a "Variance"

The statute mandates the submission of monthly reports to PICA by the City in the event of a determination by the Authority of the occurrence of a variance. That situation occurred once in PICA's history. In November of 1992, the City projected a variance of \$57 million (2.5%) for the 1993 fiscal year, and the Authority agreed with that assessment on December 9, 1992. Thereafter, until May of 1993, the City filed required monthly reports. The City was relieved of its burden to make monthly reports when the Authority approved the City's plan of correction in conjunction with its approval of the City's Five-Year Financial Plan for FY93-FY98 in May of 1993.

As provided in §210(e) of the PICA Act, legal consequences flow from a determination by the Authority of the existence of a variance. In addition to the City's additional reporting responsibilities, it also is required to develop revisions to the Plan necessary to cure the variance. The remedies which PICA has available to deal with a continuing variance are to direct the withholding of both specific Commonwealth funds due the City and that portion of the 1.50% tax levied on the wages and income of residents of the City in excess of the amounts necessary to pay debt service on PICA's bonds. Any amounts withheld would be paid over to the City after correction of the variance.

PICA "Threshold" Policies

From its inception PICA has held to the following policies in its evaluation of Philadelphia's Plans, initiatives, proposals and performance:

Emphasis on Structural Change - Consistent City failure to deal effectively with a long list of areas of government operations and service delivery contributed to the need for PICA. The City shall continually be encouraged to rethink existing policies and practices and to avoid sacrificing long-term progress for short-term gain.

Focus on Long-Term Progress - Meaningful strategic planning, institutionalization of appropriate change, focus on attaining long-term structural balance and on implementing pragmatic economic stimulus policies and procedures are matters of paramount importance and are to be emphasized in the PICA oversight process.

Infrastructure Programs - A meaningful capital program is a visible and tangible element of a City's social contract with its residents. The capital program, including proper maintenance of capital assets, is a key element to long-term fiscal stability. A consistent policy to adequately fund and staff infrastructure maintenance shall be continually encouraged.

Consistent Application of Stated Assumptions - Inconsistent application of unstated assumptions frequently caused pre-PICA City budgets to lack credibility, and made reliable assessment of prospects of attaining the results of such budgets impossible. PICA's Plan review process shall focus on assumptions utilized being both visible and consistent in their application.

Use of Credible Revenue Estimates - Realistic revenue estimates are a vital component of the City's budgeting and Plan preparation process and shall be a matter of primary concern in PICA's Annual Plan review process.

While it would be incorrect to claim that PICA threshold policies have resulted in all desired effects coming to fruition, they have contributed substantially to City procedural improvements.

Philadelphia City Controller

An unforeseen benefit of the PICA Act's requirement that PICA solicit an opinion from the City Controller as to the reasonableness of Plan assumptions and estimates has been the extensive cooperative professional relationship which has developed between PICA Staff and the Controller's Office. The mutually beneficial professional relationship includes ongoing cooperation on matters of common concern and regular staff meetings with respect to such matters; joint reviews of Plan components including appropriate joint meetings with City department heads and chief operating personnel pertinent thereto; cooperation on capital project reviews and reviews of PICA funded special purpose grants to the City; PICA assistance for Controller special situation studies; and specific Office of the Controller personnel assigned responsibility for effective ongoing liaison with PICA Staff. The City Controller provides copies of all City audit reports and copies of special situation studies to PICA on a timely basis. The assistance provided to PICA by the City Controller is sincerely appreciated. Cooperation between its "oversight" and "watchdog" entities has substantially benefited the City.

Providing Comment on Pending Legislation

In accordance with its oversight duties, PICA continues to provide comments and fiscal analysis on City legislation which impacts the City's fiscal situation. Further, PICA will uphold its responsibility to provide analysis on appropriate legislation before the General Assembly, in accordance with The PICA Act Section 203 (c) (5), which empowers the Authority "to make recommendations to the Governor and the General Assembly regarding legislation or resolutions that affect Commonwealth aid or mandates to an assisted city or that concern an assisted city's taxing power or relate to an assisted city's fiscal stability."

Corporate Entities and The School District of Philadelphia

"Corporate Entities" are defined in §1.01 of the Cooperation Agreement as "an authority or other corporate entity, now existing or hereafter created, of which one or more members of its governing board are appointed by the Mayor and which performs governmental functions for the City". The Agreement provides that the City shall cooperate with PICA in any PICA request to look into the operations of either the Corporate Entities or the School District of Philadelphia. To date PICA has not devoted any substantial attention to the operations of such City related institutions, but it is

currently in a position to promptly assist in the matter of School District of Philadelphia assistance and oversight as has been suggested, but not yet requested, by the Pennsylvania Courts and Legislature and by Philadelphia's Mayor. PICA has also offered its expertise to the newly formed School Reform Commission as well as the new CEO of the School District of Philadelphia.

The Work of PICA - Fiscal Year 2002

Approval of the FY2003-FY2007 Plan

Review and recommendation for approval of the City's FY2003-FY2007 Five-Year Financial Plan was a major component of PICA Staff activities during the 2002 fiscal year. PICA Staff's comprehensive review of the Plan included assessment of the reasonableness of Plan revenue projections. The approved Plan proposes continued annual cuts in wage and earnings and business privilege taxes. Estimates of the impact of the tax cuts on revenues were carefully weighed during the review process.

Although recommended for approval the Plan contained both quantifiable and qualitative risks to the continuing fiscal health of the City. PICA Staff noted that certain of the new Administration's guidelines and proposals constitute new risks to the City's finances without providing precautionary strategies; and cited five significant risks contained in the Plan (two of which were quantifiable) as follows:

- Inclusion of unidentified "Future Government Efficiencies" in each of the final four years of the Plan (\$178 million risk).
- Loss of Philadelphia Gas Work's annual \$18 million payment to the City as well as possible failure to repay a loan to the City (\$153 million).
- No explicit funding in the Plan for any costs associated with new labor contracts for uniformed employees after FY2002 and non-uniformed employees after FY2004.
- Additional City contributions to the Pension Fund if lower than expected rates of return continue.
- An increase in the percentage of locally generated dollars that are subject to long-term commitments and the City's fast approach to its allowable debt limit, which jeopardizes the infrastructure maintenance goals of the overall Capital Program.

The Plan's success depends on the continued recovery of the national economy. The City's economic projections are reasonable given such an economic climate.

The Staff Report on the City of Philadelphia's Five-Year Financial Plan for Fiscal Year 2003-Fiscal Year 2007, dated June 18, 2002 and comprising 54 pages, is available by contacting PICA at 215-561-9160 or at our website www.picapa.org.

Strategic Planning

PICA has consistently urged the City to undertake a strategic planning process, both to assist in institutionalizing the management reforms that have been implemented to date and to promote further changes in the fundamental operations of City government that will help maintain fiscal stability over the long term. The City responded with a process that resulted in a Strategic Plan for City government as a whole, published as an appendix to the FY1996-FY2000 Plan. That Citywide Strategic Plan served as a comprehensive statement of the issues facing City government and the general strategies and action steps that the City expected to follow in addressing these issues over the coming years.

The production of the Citywide plan was an important step. However, for the full value of the strategic planning process to be realized, individual departments and agencies need to produce strategic plans that translate the Citywide plan into specific departmental actions and measurable goals. Additionally, the current Administration must demonstrate that strategic planning is a fundamental element of managing the City.

PICA will press the current City Administration to focus on strategic planning as a valuable management tool.

City Capital Program

Oversight of the capital program continued to be a key element of PICA's work in FY02. The City continues to make progress in its scheduling and monitoring of capital project activities. Improved City monitoring of budget, encumbrance and expenditure information by project is encouraging.

PICA Staff has continually noted the need for the City's capital program to be guided by an overall strategic plan. Progress in this area has been limited by the fact that the strategic planning process remains incomplete. PICA Staff continues to monitor the relationship of the capital program and capital budgets to other Citywide programs.

Reprogramming of Capital Program Dollars

Since PICA's inception, some of the projects previously approved for use of PICA bond proceeds were either completed under budget, completed with other City funds, or deemed no longer necessary. PICA Staff and the City's Capital Program Office and Budget Office completed a reconciliation of outstanding monies in the PICA Capital Funds Account. \$3.4 million was deemed available for reprogramming and the PICA Board approved use of those funds for one new project that met PICA's statutory criteria.

These projects focused on Criminal Justice areas in accordance with the PICA statute. Specifically, funds were allocated to funding completion of the new Women's Detention Facility.

Maintenance of City Facilities

The need for an efficient maintenance program for all City facilities has been an ongoing PICA concern. Preventive maintenance inadequacies in the past led to substandard City facilities, with direct impacts on service levels, and eventual use of limited capital dollars as maintenance problems deteriorated over time into major capital repair requirements. To prevent such occurrences in the future, PICA Staff believes that the City must consolidate separate facility maintenance units located within the various City departments and move toward a Citywide facility maintenance program.

While there have been improvements in preventive maintenance, further progress is needed to ensure that facilities are maintained at acceptable standards and that the level of City maintenance investment is sufficient to minimize the City's costs over the long term.

The Tax Base and the Local Economy

The City's high tax burden for individuals and businesses remains a major obstacle to economic development. The continuing tax cuts proposed in the FY2003-FY2007 Plan are a positive step toward addressing this problem. However, even with the implementation of the tax reductions, significant tax differentials will remain between the City and competing locations in the suburbs and elsewhere. While State and Federal policies drive much of the tax differential, the City government can still do much to promote a more competitive tax structure. The City can further increase productivity, cut costs, improve tax enforcement and make appropriate changes in the levels and mix of City services provided, consistent with a strategic plan.

During FY02, PICA Staff provided testimony and documentation to the Philadelphia City Council in a series of debates regarding the implementation of tax cuts beyond those originally proposed by the Administration. Many of PICA's tax recommendations were incorporated into the revised tax reduction program. PICA Staff continues to press for a more efficient tax structure.

Indemnities

During FY02, the City did not draw funds from the Special Indemnity Accounts that were created with PICA bond proceeds that were not needed to finance initially projected deficits. As of June 30, 2002, in excess of \$12.8 million remained in such accounts, including proceeds from the 1992 bond issue granted to the City by PICA and subsequent interest earnings. These funds continue to be available for indemnity payments associated with cases resolved under the Court of Common Pleas Day Backward/Day Forward backlog reduction program.

Goals for PICA - Fiscal Year 2003

Ongoing Goals

During the next fiscal year, PICA Staff will continue to:

- Focus on the need for City departments and agencies to produce strategic plans which delineate specific actions to be undertaken and measurable goals to be achieved that assist in attaining the goals of the Citywide Plan.
- Promote the further development and use of departmental performance measures that contribute to a better understanding of and capacity to manage departmental activities.
- Oversee PICA-funded City capital projects, stressing essential improvements to the City's capital project management and the benefits derivable from coordinated strategic and capital planning.
- Encourage identification of additional City capital funds available for reprogramming and utilize these funds for projects meeting PICA's statutory criteria.
- Encourage the implementation of a consolidated Citywide facility maintenance program.
- Begin to provide advice to the new leadership of the Philadelphia School District.

Plan Approvals

PICA Staff looks forward to the FY2003 review of the City's Five-Year Financial Plan, Fiscal Year 2004-Fiscal Year 2008 (including Fiscal Year 2003) with the input of the professional staff of the City Controller. The Plan will need to produce reasonable revenue expenditure projections and reasonable prospects for continued General Fund balance.

Achieving Balanced Annual Budgets

Every year of the current Plan assumes an annual operating deficit, ranging from \$50 million to nearly \$90 million. It would be logical to assume that if the Plan extended to FY2008, even with the increased revenue streams mentioned above, the City would be faced with a negative fund balance. PICA Staff believes the City needs to begin striving for projected annual Operating Fund balance in order to achieve true fiscal stability.

The School District of Philadelphia

The possibility of PICA being of substantial assistance to both the Commonwealth of Pennsylvania and the City of Philadelphia in the matter of School District financial oversight was originally proposed by the Courts, has twice been a matter of legislative discussions, and has been endorsed by the Mayor and several members of City Council. That opportunity and the challenges it would present would be welcomed by PICA Staff and would immediately become a top priority item. PICA's budget includes reserve funding for such an event.

Improving Philadelphia's Tax Structure

PICA will continue to publish papers and provide testimony regarding the ongoing efforts to make Philadelphia's tax structure more efficient and effective.

Overall Goal

PICA's overall goal continues to be assisting the City to become more proactive in serving its citizens; to define its service delivery philosophy; and then to consistently deliver such services within the constraints of available resources. No less will be acceptable.

Future City Reporting to PICA

Regular Reporting Required

The reporting system established in the Cooperation Agreement and in the PICA Act requires a regular flow of data from the City to PICA. This system is the fundamental device used by PICA Staff in its ongoing evaluation of City progress in its fiscal rehabilitation. PICA is generally satisfied as to the information being provided to it. PICA Staff anticipates working closely with the Administration to ensure that there is no lapse in the flow of information PICA requires to fulfill its mission.

Data to be Received by PICA Includes:

Revised Plan. The PICA Act and the Cooperation Agreement contemplate the continuous existence of a Plan encompassing the current fiscal year and the four fiscal years thereafter, and require that a new year be added to the then-existing Plan not later than 100 days prior to the end of each fiscal year. The City's Five-Year Financial Plan, Fiscal Year 2004-Fiscal Year 2008 (including Fiscal Year 2003) is thus anticipated to be received by PICA by March 22, 2003.

Quarterly Plan Reports. Under the Cooperation Agreement (§409(b)), the Authority receives reports from the City on a quarterly basis (within 45 days after the end of each fiscal quarter) concerning the status of compliance with the Plan and associated achievement of initiatives. The Cooperation Agreement (§409(e)) also requires that the City provide reports to PICA concerning Supplemental Funds (i.e., the Water and Aviation Funds) on a quarterly basis.

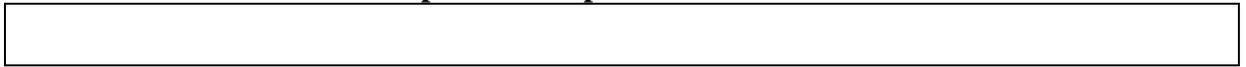

Grants Revenue Fund Contingency Account Report. The Cooperation Agreement provides that a report on the Grants Revenue Fund Contingency Account be prepared and submitted, by department, not later than 20 days after the close of each fiscal quarter. This report details the receipt and use of Federal and Commonwealth Funds by the City. A separate report details the eligibility for fund withholding by the Commonwealth (at PICA's direction) in the event the City cannot propose credible measures to balance a Plan which has been declared at "variance" by PICA.

Prospective Debt Service Requirements Report. The Cooperation Agreement requires submission of a report detailing prospective debt service payments by the City, as well as lease payments, 60 days prior to the beginning of a fiscal quarter, and upon each issuance of bonds or notes or execution of a lease.

Management Discussion of Financial Operations

The Board of the Pennsylvania Intergovernmental Cooperation Authority (the Authority) offers the following narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2002.

Financial Highlights

- The total net assets of the Authority at the close of the fiscal year were (\$694,478,230) representing an increase in net assets of \$39,353,757 over the prior year.
- At the close of the current fiscal year, the Authority's General Fund unreserved balance increased by over \$981,000 to \$2,221,612 from the prior fiscal year. All Administration costs in during fiscal year 2002 were funded from the Authority's earnings on its General Fund and on its Debt Service Reserve Fund.
- The Authority's outstanding long-term debt decreased by \$61,175,000 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements comprise three components: 1) government-wide financial statements, and 2) governmental funds financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of activities presents information showing how the Authority's net assets changed during the fiscal year ended June 30, 2002. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements can be found on pages 2-3 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds are used to account for essentially the functions as reported as governmental activities in the government-wide financial statements. However, unlike the

government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Authority's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Authority maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances.

The basic governmental fund financial statements can be found on pages 4-5 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 6-18 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Authority, liabilities exceeded assets by \$694,478,230 at the close of fiscal year 2002.

By far the largest portion of the Authority's net deficit reflects its bonds payable. Proceeds from the PICA tax as well as the corresponding interest earned are in part utilized to fund such debt service requirements. The Authority's bonds payable activity for the year ended June 30, 2002 is summarized as follows:

	Amount <u>(in thousands)</u>
Outstanding Debt at July 1, 2001	\$901,850
Debt Retired	<u>61,175</u>
Outstanding Debt at June 30, 2002	<u>\$840,675</u>

The Authority's long-term investments make up the largest portion of the total assets. Such investments are derived from the proceeds of bond issuances of year's past and the related investment income and are used to provide grants to the City of Philadelphia for various capital projects. During fiscal year 2002, the Authority granted approximately \$201.5 million to the City of Philadelphia.

Governmental activities decreased the Authority's net deficit by \$39,353,757, thereby

accounting for the total growth in assets during fiscal year 2002. Asset growth was due primarily to the retirement of long-term debt as well as better than budgeted operating fund results during fiscal year 2002.

Governmental Funds Financial Analysis

As of the end of the current fiscal year, the Authority's governmental funds reported combined ending fund balances of approximately \$146 million, a decrease of approximately \$21.8 million in comparison with the prior year. Approximately 60 percent of this total amount (\$87.4 million) constitutes fund balances reserved for debt service. Approximately 37 percent of the total (\$54.6 million) constitutes fund balances that are reserved for the benefit of the City of Philadelphia. The remainder of the reserved fund balances is reserved primarily for the administration of the Authority. Approximately \$2.2 million constitutes unreserved fund balance, which is available for spending at the Authority's discretion.

General Fund. All fiscal year 2002 administration expenses of the Authority were funded from the Authority's earnings on its General Fund and on its Debt Service Reserve Fund (established from proceeds of the Authority's bond issues) and residual balances of similar earnings from prior fiscal years. No City of Philadelphia or Commonwealth of Pennsylvania tax revenues were used to pay any portion of the Authority's administrative costs in fiscal year 2002, nor are any expected to be used in fiscal year 2003 for such purpose.

The PICA Act allows the Authority several sources of income to support its operations. The statute specifically provides that the Authority may draw earnings from the various funds and accounts created pursuant to its Trust Indenture, and also directly from the proceeds of PICA Taxes to the extent investment income is insufficient. The latter allowable revenue source has never been utilized by the Authority.

The PICA Act requires that the Authority adopt an annual budget (for the fiscal year commencing July 1) before March 1 of each year and also stipulates the format thereof, and information to be provided therewith to the Governor and General Assembly of the Commonwealth of Pennsylvania. The Authority's annual General Fund budgets, since its inception, have all produced surpluses.

Details as to anticipated and actual fund balances as of June 30, 2002 and as to the fiscal year 2002 budget are as follows:

Anticipated Residual Fund Balance:

Fund Balance at June 30, 2001	\$1,311,341
Less: Utilization of Fund Balance	<u>71,709</u>
Anticipated Fund Balance at June 30, 2002	<u>\$1,239,632</u>

Fund Balance at June 30, 2002 (Anticipated/Actual):

Anticipated Unreserved Fund Balance at June 30, 2002	\$1,239,632
Add: Net FY02 "Better than Budget" Operating Results	<u>981,980</u>
Actual Unreserved Fund Balance at June 30, 2002	<u>\$2,221,612</u>

General Fund Budget for FY03:

Revenues - General Fund Interest Earnings	\$ 53,050
Other Financing Sources - Transfer from Bond Issue Investment Earnings ("Reserved for subsequent Authority Administration" in the Debt Service Reserve Fund at June 30, 2002)	1,832,483
Utilization of portion of FY02 fund balance	<u>0</u>
Total Estimated Expenditures	<u>\$1,885,533</u>

The Authority's fiscal year 2003 budget recognizes the possibility that the Authority may be requested to become involved in oversight matters pertinent to the School District of Philadelphia; and provides funding to study and/or implement such a role.

The philosophy underlying the Authority's general fund operations remains that the Authority should maintain a personnel and expenditure level sufficient to permit it to respond to the demands placed upon it, but not so large as to present an opportunity either for the City of Philadelphia to use the Authority's resources to bypass the re-creation of its own management systems or to establish a permanent Authority structure that would develop its own reason for continued existence.

Special Revenue Fund. The Authority's Special Revenue Fund receives PICA taxes, interest earnings on such collections, and net interest earnings on bond issue funds other than Capital Projects Funds (the earnings on Capital Projects Funds are restricted to use for grants to the City of Philadelphia for PICA approved capital projects). The Special Revenue Fund receipts are utilized to provide, monthly, from the first available funds in that month, one-sixth of the next semi-annual interest requirement on PICA bonds outstanding and one-twelfth of the next annual principal requirement on PICA bonds outstanding, in a manner calculated to provide the total required semi-annual interest and the total required annual principal at the close of the month prior to such required date. After provision of monthly debt service requirements, the residual balances in PICA's Special Revenue Fund are paid to City of Philadelphia as grants to the City's General Fund.

The Special Revenue Fund received in excess of \$156,000 on its invested balances during fiscal year 2002, and also received in excess of \$5,361,000 of net interest earnings transferred in from other bond issue provided funds. Thus, PICA grants to the City of Philadelphia's General Fund during fiscal year 2002 exceeded the equation (PICA taxes minus provision for PICA Debt Service divided by the monthly basis equals PICA grants to the City) by in excess of \$5,518,000.

Debt Service Funds. The Debt Service Funds account for the accumulation of financial resources for the payment of principal and interest on PICA's long-term debt.

Debt Service Reserve Fund. This fund is used to hold assets for debt service reserve purposes as required by the Trust Indenture. Current year investment earnings were transferred to pay current year debt service requirements and to aid in paying for the general fund's administration expenditures.

Rebate Fund. This fund is maintained in order to fund future potential rebates and/or debt service requirements. The only activity that occurred during the current fiscal year was the increase from investment earnings.

At June 30, 2002, the Fund Balances held in the combined Debt Service Funds, by individual fund groups, consisted of:

Debt Service Fund -- Current assets held for interest due 12/15/02 and principal due 6/15/03	\$ 6,977,415
Debt Service Reserve Fund -- Current assets held for debt service reserve purposes as required by the Trust Indenture	76,840,350
Rebate Fund -- Current assets held for future potential rebate/debt service purposes	<u>3,562,787</u>
Amount Reserved for Debt Service	\$87,380,552
Debt Service Reserve Fund -- Current assets held for subsequent PICA administration purposes (Debt Service Reserve Fund earnings held for PICA FY03 operations – per adopted budget)	<u>1,832,483</u>
Fund Balances at June 30, 2002-- Combined Debt Service Funds	<u>\$89,213,035</u>

Expendable Trust/Capital Projects Funds. Expendable trust funds include amounts held separately, by bond issue from which such funds were provided, for purposes of grants to the City of Philadelphia for specific PICA approved capital projects. The PICA Act restricts City of Philadelphia use of PICA provided capital projects dollars to specific "emergency" and "productivity" projects approved by the PICA Board and, where necessary, by specified Commonwealth of Pennsylvania elected officials.

PICA, in connection with its three new-money bond issues, approved specific City capital projects totaling approximately \$426 million, while providing bond issue funds of approximately \$400.8 million for such projects. The difference, \$25.2 million, as anticipated, has been raised from investment earnings of funds dedicated to capital projects. At June 30, 2002, sufficient PICA controlled capital projects funds were available to complete all of the initially approved PICA projects, to complete \$16.3 million of additional projects subsequently approved by the PICA Board, and an additional \$30.2 million of yet to be designated projects. Capital project funds held for PICA capital project grants to the City of Philadelphia totaled approximately \$54.6 million at June 30, 2002.

Additional information. In accordance with IRS regulations, certain funds already granted to the City of Philadelphia by PICA continue to be classified as PICA Arbitrage Reportable Funds until the City of Philadelphia expends such funds for the purpose for which they were provided. Accordingly, and also for oversight purposes, PICA tracks the uses/balances of such grant funds and interest earnings thereon as yet unexpended by the City of Philadelphia. As of June 30, 2002, such PICA provided funds as yet unexpended by the City of Philadelphia included:

INDEPENDENT AUDITORS' REPORT

To the Board of the Authority:

We have audited the accompanying financial statements of the governmental activities and each major fund of the Pennsylvania Intergovernmental Cooperation Authority (the "Authority") as of and for the year ended June 30, 2002, which collectively comprise the Authority's basic financial statements as listed in the foregoing table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the Authority has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements- and Management's Discussion and Analysis- for State and Local Governments*, as of June 30, 2002.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Pennsylvania Intergovernmental Cooperation Authority as of June 30, 2002, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying management's discussion and analysis as listed in the table of contents is not a required part of the financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consist principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However we did not audit such information and therefore, express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The supplemental schedules listed in the foregoing table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. These supplemental schedules are the responsibility of the Authority's management. Such supplemental schedules have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2002

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization and Structure—The Pennsylvania Intergovernmental Cooperation Authority (the “Authority”), a body corporate and politic, was organized on June 5, 1991 and exists under and by virtue of the Pennsylvania Intergovernmental Cooperation Authority Act for Cities of the First Class (P.L. 9, No. 6) (the “Act”). Pursuant to the Act, the Authority was established to provide financial assistance to cities of the first class. The City of Philadelphia (the “City”) currently is the only city of the first class in the Commonwealth of Pennsylvania (the “Commonwealth”). Under the Act, the Authority is administered by a governing Board consisting of five voting members and two ex officio nonvoting members. The Governor, the President pro tempore of the Senate, the Minority Leader of the Senate, the Speaker of the House of Representatives and the Minority Leader of the House of Representatives each appoints one voting member of the Board.

The Act provides that, upon the request of the City to the Authority for financial assistance and for so long as any bonds of the Authority remain outstanding, the Authority shall have certain financial and oversight functions. First, the Authority shall have the power, subject to satisfaction of certain requirements in the Act, to issue bonds and grant or lend the proceeds thereof to the City. Second, the Authority also shall have the power, in its oversight capacity, to exercise certain advisory and review powers with respect to the City’s financial affairs, including the power to review and approve five-year financial plans prepared at least annually by the City, and to certify noncompliance by the City with its then-existing five-year financial plan (which certification would require the Secretary of the Budget of the Commonwealth to cause certain payments due to the City from the Commonwealth to be withheld by the Commonwealth).

Adoption of GASB Statement 34 - The Authority has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements- and Management’s Discussion and Analysis- for State and Local Governments*, as of June 30, 2002. The requirements of this new reporting model are described below.

Government-Wide and Fund Financial Statements—The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are

recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements utilize a “modified accrual basis” of accounting. Under this basis, certain revenues (those susceptible to accrual, readily measurable and available as to amount and anticipated as being readily collectible) are recorded on the accrual basis. All other revenues are recognized only when received in cash. Expenditures, with the exception of interest requirements on long-term debt, are accounted for on the accrual basis of accounting.

The General Fund is used to account for the administrative operations of the Authority, for which a budget is adopted annually.

The Special Revenue Fund accounts for the proceeds of the PICA Tax (a tax levied on the wages and net profits of City of Philadelphia residents) remitted to the Authority via the Commonwealth. It is utilized to fund the debt service requirements of the Authority and to provide grants to the City. It encompasses the Revenue Fund established with the Trustee by the Trust Indenture (see Note 3).

Debt Service Funds account for the accumulation of financial resources for the payment of principal and interest on the Authority’s long-term debt. The Debt Service Reserve Fund holds assets for debt service reserve purposes as required by the Trust Indenture. The Rebate Fund is maintained in order to fund future potential rebates and/or debt service requirements. The Debt Service Funds also include the Bond Redemption Fund which has not yet been required.

The Expendable Trust Funds/Capital Projects Funds account for assets held by the Authority for expenditure for the benefit of the City. The principal and income of these funds must be expended for their designated purpose. These funds also utilize the modified accrual basis of accounting. The Expendable Trust Funds/Capital Projects Funds also include the Deficit and Settlement funds which completed their designated purposes in prior years and are presently inactive.

PICA Tax—The “PICA Tax” was enacted by an ordinance adopted by City Council and approved by the Mayor of the City of Philadelphia on June 12, 1991 (Bill No. 1437). The tax levy is one and one-half percent (1.5%) on the wages and net profits of City residents. The PICA Tax is collected by the Department of Revenue of the Commonwealth, utilizing the City Revenue and Law Departments (collectively) as its agent, and remitted to the Treasurer of the Commonwealth for disbursement to the Authority’s Trustee.

Compensated Absences—The Authority records all accrued employee benefits, including accumulated vacation, as a liability in the period benefits are earned. Accrued vacation at June 30, 2002 totaled \$115,622.

Investments—The Authority’s investments are stated at fair value.

2. CASH AND INVESTMENTS

Authority funds may be deposited in any bank that is insured by federal deposit insurance. To the extent that such deposits exceed federal insurance, the depositories must deposit (with their trust department or other custodians) obligations of the United States, the Commonwealth of Pennsylvania or any political subdivision of the Commonwealth. Under Pennsylvania Act 72 of 1971, as amended, the depositories may meet this collateralization requirement by pooling appropriate securities to cover all public funds on deposit with their institution.

Investments in the Special Revenue Fund, the Debt Service Funds, and the Expendable Trust Funds must be invested in accordance with the Trust Indenture (see Note 3). The Trust Indenture restricts investments to the following types of securities:

- (a) Obligations of the City of Philadelphia;
- (b) government obligations;
- (c) federal funds, unsecured certificates of deposits, time deposits or bankers' acceptances of any domestic bank having a combined capital and surplus of not less than \$50,000,000;
- (d) federally insured deposits of any bank or savings and loan association which has a combined capital, surplus and undivided profits of not less than \$3,000,000;
- (e) (i) direct obligations of, or (ii) obligations, the principal of and interest on which are unconditionally guaranteed by any state of the United States of America, the District of Columbia or the Commonwealth of Puerto Rico, or any political subdivision or agency thereof, other than the City, whose unsecured, uninsured and unguaranteed general obligation debt is rated, at the time of purchase, "A" or better by Moody's and Standard & Poor's (S&P);
- (f) commercial paper (having original maturities of not more than 270 days) rated, at the time of purchase, "P-1" by Moody's and "A-1" or better by S&P;
- (g) repurchase agreements collateralized by direct obligations of, or obligations the payment of principal and interest on which are unconditionally guaranteed as to full and timely payment by, the United States of America; and direct obligations and fully guaranteed certificates of beneficial interest of the Export-Import Bank of the United States; consolidated debt obligations and letter of credit-backed issues of the Federal Home Loan Banks; participation certificates and senior debt obligations of the Federal Home Loan Mortgage Corporation; debentures of the Federal Housing Administration; mortgage-backed securities (except stripped mortgage securities which are valued greater than par on the portion of unpaid principal) and senior debt obligations of the Federal National Mortgage Association; participation certificates of the General Services Administration; guaranteed mortgage-backed securities and guaranteed participation certificates of the Government National Mortgage Association; guaranteed participation certificates and guaranteed pool certificates of the Small Business Administration; debt obligations and letter of credit-backed issues of the Student Loan Marketing Association; local authority bonds of the U.S. Department of Housing and Urban Development; and guaranteed Title XI financing of the U.S. Maritime Administration.
- (h) money market mutual fund shares issued by a fund having assets not less than \$100,000,000 (including any such fund from which the Trustee or any of its affiliates may receive compensation) which invests in securities of the types specified in clauses (b) or (f) above and is rated "AAAm" or "AAAm-G" by S&P;
- (i) guaranteed investment contracts (GICs) with a bank, insurance company or other financial institution that is rated in one of the three highest rating categories by Moody's and S&P and which GICs are either insured by a municipal bond insurance company or fully collateralized at all times with securities included in (b) above.

Investments in the Debt Service Reserve Fund may only be invested in the investments included in (b) through (i) above with a maturity of 5 years or less or GICs that can be withdrawn without penalty.

At June 30, 2002, the carrying amount of the Authority's deposits with financial institutions (including certificates of deposit and shares in U.S. Government money market funds) was \$38,116,186. The bank balance of \$38,154,667 was insured or collateralized as follows:

Insured	\$ 100,000
Uninsured and uncollateralized, but covered under the provisions of Act 72, as amended	<u>38,054,667</u>
Total deposits	<u>\$ 38,154,667</u>

The following is a schedule of investments of the Authority by type (other than certificates of deposit and shares in U.S. Government money market funds) showing the carrying value and categorization as to credit risk at June 30, 2002:

	<u>Total</u>	<u>Fair Value</u>		
		<u>Credit Risk Category</u>		
		<u>(1)</u>	<u>(2)</u>	<u>(3)</u>
Federal National Mortgage Loan Corporation discount note	\$ 13,514,580			\$ 13,514,580
Federal National Mortgage Association debenture	3,558,828			3,558,828
Repurchase agreements	<u>117,471,593</u>			<u>117,471,593</u>
Total investments	<u>\$ 134,545,001</u>			<u>\$ 134,545,001</u>

The three credit risk categories are defined as follows:

Category

- (1) Insured, registered or securities held by the entity or its agent (bank trust department) in the entity's name (name of the Authority).
- (2) Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the entity's name.
- (3) Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the entity's name.

During the year ended June 30, 2002, deposits and investments of the Authority were similar to those on hand at June 30, 2002 with respect to credit risk.

The Authority's deposits include bank certificates of deposit that have a remaining maturity at time of purchase of one year or less and shares in U.S. Government money market funds. U.S. Government Agency Investments with a remaining maturity of one year or less are classified as short-term investments.

3. SPECIAL TAX REVENUE BONDS

In the government-wide financial statements bonds are reported as liabilities in the statement of net assets. Through June 30, 2002, the Authority issued six series of Special Tax Revenue Bonds, as follows:

Series of	Amount Issued
1992	\$474,555,000
1993	643,430,000
1993A	178,675,000
1994	122,020,000
1996	343,030,000
1999	610,005,000

The following summary shows the changes in bonds payable for the year ended June 30, 2002:

Series of	Outstanding July 1, 2001	Retirements	Outstanding June 30, 2002
1993A	\$ 169,055,000	\$ 775,000	\$ 168,280,000
1996	150,870,000	45,800,000	105,070,000
1999	<u>581,925,000</u>	<u>14,600,000</u>	<u>567,325,000</u>
	<u>\$ 901,850,000</u>	<u>\$ 61,175,000</u>	840,675,000
Less current portion			<u>36,620,000</u>
Long-term portion			<u>\$ 804,055,000</u>

In conjunction with its 1992, 1993 and 1993A bond issues, the Authority entered into an Indenture of Trust dated as of June 1, 1992 which was subsequently amended and supplemented as of June 22, 1992, July 15, 1993 and August 15, 1993. An Amended and Restated Indenture of Trust dated as of December 15, 1994 was entered into in conjunction with the Authority's 1994 bond issue and replaced (amended and restated) the original indenture as amended and supplemented. The 1996 bonds were issued pursuant to the Amended and Restated Indenture of Trust dated as of December 15, 1994 (the "1994 Indenture") as amended and supplemented by a First Supplement to the Amended and Restated Indenture of Trust dated as of May 15, 1996. The 1999 bonds were issued pursuant to the Amended and Restated Indenture of Trust dated as of December 15, 1994 as amended and supplemented by a First Supplement to the Amended and Restated Indenture of Trust dated as of May 15, 1996 and a Second Supplement to the Amended and Restated Indenture of Trust dated as of April 1, 1999 (together the "Trust Indenture") between the Authority and First Union National Bank as Trustee (the "Trustee"). The Trustee's responsibilities include ensuring that the proceeds of the PICA Tax (see Note 1) received by it are used to fund the debt service payments (bond principal and interest) required under the Trust Indenture.

Each series of bonds issued by the Authority are limited obligations of the Authority and the principal, redemption premium, if any, and interest thereon, are payable solely from a portion of the PICA Tax.

To issue additional bonds, the Trust Indenture requires that the Authority's collection of PICA Taxes in any twelve consecutive months during the fifteen-month period immediately proceeding the date of issuance of such additional bonds equals at least 175% of the maximum annual debt service requirement on the bonds outstanding after the issuance of the additional bonds. The PICA Taxes collected during the year ended June 30, 2002 (\$276,221,579) equaled approximately 349% of the maximum annual debt service (\$79,229,826) of the bonds outstanding at June 30, 2002 (the 1993A, 1996 and 1999 bonds).

Total annual debt service requirements (annual principal or sinking fund requirements and interest payments) on the outstanding bonds at June 30, 2002 are as follows:

Fiscal Year Ending	Total Debt Service Requirements
2003	\$ 79,229,826
2004	76,391,709
2005	85,979,061
2006	86,123,509
2007	86,121,324
2008	80,455,926
2009	71,836,686
2010	65,010,966
2011	61,349,791
2012	61,332,279
2013	61,320,981
2014	61,299,075
2015	61,286,038
2016	61,253,475
2017	61,231,425
2018	52,108,063
2019	43,388,863
2020	43,386,138
2021	34,001,413
2022	33,999,413
2023	20,489,100

Details as to the purpose of each of the respective series of bonds issued by the Authority to June 30, 2002 and as to bonds outstanding at that date follow.

A. Series of 1992

The proceeds from the sale of the Series of 1992 Bonds were to be used to (i) make grants to the City to fund the Fiscal Year 1991 General Fund cumulative deficit and the projected Fiscal Years 1992 and 1993 General Fund deficits, (ii) make grants to the City to pay the costs of certain emergency capital projects to be undertaken by the City and other capital projects to increase productivity in the operation of City government, (iii) make the required deposit to the Debt Service Reserve Fund, (iv) capitalize interest on a portion of the Series of 1992 Bonds through June 15, 1993, (v) repay amounts previously advanced to the Authority by the Commonwealth to pay initial operating expenses of the Authority, (vi) fund a portion of the Authority's first fiscal year operating budget, and (vii) pay the costs of issuing the Series of 1992 Bonds.

Series of 1992 Bonds in the aggregate principal amount of \$136,670,000, initially scheduled to mature June 15, 2006, 2012 and 2022 were advance refunded on September 14, 1993 (the “Refunded 1992 Bonds”) through an irrevocable trust created by using a portion of the proceeds of the Series of 1993A Bonds. Series of 1992 Bonds in the aggregate principal amount of \$304,160,000, initially scheduled to mature June 15, 1996, 1997, 1998, 1999, 2000 and 2002 were advance refunded on May 15, 1996 (also the “Refunded 1992 Bonds”) together with the Refunded 1994 Bonds (see Series of 1994 in this Note 3) through an irrevocable trust created by using the net proceeds of the Series of 1996 Bonds together with monies on deposit with the Trustee on account of the Refunded 1992 Bonds, monies on deposit with the Trustee on account of the Refunded 1994 Bonds and sums derived from certain forward purchase agreements entered into with respect to the irrevocable trust. The Refunded 1992 Bonds are no longer deemed to be outstanding under the Trust Indenture.

B. Series of 1993

The proceeds from the sale of the Series of 1993 Bonds were to be used to (i) make grants to the City to pay the costs of certain emergency capital projects (including capital improvements to the City’s Criminal Justice and Correctional Facilities) to be undertaken by the City and other capital projects to increase productivity in the operation of City government, (ii) make a grant to the City for refunding of certain of the City’s General Fund Obligation Bonds, (iii) make the required deposit to the Debt Service Fund, and (iv) to pay the costs of issuing the Series of 1993 Bonds.

Series of 1993 Bonds in the aggregate principal amount of \$610,730,000, initially scheduled to mature June 15, 1999 through 2009, 2015, 2016 and 2023 were advance refunded on April 1, 1999 (the “Refunded 1993 Bonds”) through an irrevocable trust created by using the net proceeds of the Series of 1999 Bonds together with monies on deposit with the Trustee on account of the refunded 1993 bonds. The Refunded 1993 Bonds are no longer deemed to be outstanding under the Trust Indenture (see Note 5).

C. Series of 1993A

The proceeds from the sale of the Series of 1993A Bonds were to be used to (i) provide for the advance refunding of a portion of the Authority’s Special Tax Revenue Bonds Series of 1992, in the aggregate principal amount of \$136,670,000, (ii) make the required deposit to the Debt Service Fund, and (iii) to pay the costs of issuing the Series of 1993A Bonds.

G. Series of 1993A, 1996, and 1999 Swaptions

During the fiscal year ended June 30, 2002, the Authority entered into three swaption agreements with JPMorganChase as the counterparty. These swaption agreements were entered into in order to affect a synthetic advance refunding of the Authority's 1993A, 1996, and 1999 bond issuances at some point in the future. The Authority received a total of \$26,235,000, recorded as deferred revenue, for the option to enter into interest rate swap agreements, the first may begin during the fiscal year 2003. At the time any of the interest rate swap agreements are to take effect, the notional amounts will represent the outstanding debt balance at that time. The Authority will pay an annual fixed interest rate, which represents the rate on its variable rate bonds for that time period, approximately 5.0%. In turn the Authority will receive a floating rate which will be a predetermined percentage of LIBOR. Both the Authority and the counterparty have the ability to end the interest rate swap agreements, with monetary consequences, before the interest rate swaps are set to begin.

4. REFUNDED 1994 BONDS - 1996 REFUNDED BONDS ESCROW FUND

Proceeds of the Series of 1996 Bonds, together with certain funds held by the Trustee on account the Series of 1994 Bonds and the proceeds of certain forward supply agreements entered into utilizing portions of the proceeding funds (the 1994 and 1996 proceeds supply agreements) were deposited into an irrevocable trust fund (the "1996 Refunded Bonds Escrow Fund") under and pursuant to the terms of an escrow deposit agreement, dated as of May 15, 1996 (the "Escrow Deposit Agreement") between the Authority and its "Escrow Agent." First Union National Bank became the Escrow Agent during the fiscal year ended June 30, 1997. The 1996 Refunded Bonds Escrow Fund is required to be invested in Government Obligations (as defined in the Trust Indenture). Moneys in the 1996 Refunded Bonds Escrow Fund shall be used to pay when due the principal of and interest on the 1994

Refunded Bonds as the same shall become due and payable from the date of the Escrow Deposit Agreement to and including June 15, 2005 (the “1994 Bonds Redemption Date”) and to pay on the 1994 Bonds Redemption Date the Redemption Price (100% of principal amount) of the outstanding 1994 Refunded Bonds maturing after that date plus accrued interest on that date.

The following sets forth the 1994 Refunded Bonds (\$104,185,000 aggregate amount) which remain advance refunded through establishment of the 1996 Refunded Bonds Escrow Fund:

Maturing June 15	Par Amount
2003	\$ 2,850,000
2004	3,025,000
2005 and thereafter	98,310,000*

* Includes redemption of all Bonds maturing 2005 through 2021.

At June 30, 2002, the 1996 Refunded Bonds Escrow Fund held cash and United States Treasury Securities (at market) in the amount of \$123,970,379 for payment of its obligations after that date. The maturing principal and interest on the securities held in escrow have been verified as being sufficient to provide for the payment of the principal of, interest on and redemption price of the Refunded Bonds on their scheduled maturity and redemption dates.

5. REFUNDED 1993 BONDS—1993 BONDS ESCROW FUND

A portion of the proceeds of the Series of 1999 Bonds (\$616,677,050), together with moneys on deposit with the Trustee on account of the Refunded 1993 Bonds (\$19,817,995), were deposited into an irrevocable trust fund (the “1993 Bonds Escrow Fund”) established and held by First Union National Bank, an escrow agent (the “Escrow Agent”), under and pursuant to the terms of an escrow deposit agreement dated as of April 1, 1999 (the “Escrow Deposit Agreement”). The 1993 Bonds Escrow Fund is required to be invested in Government Obligations, as defined in the Trust Indenture. Moneys in the 1993 Bonds Escrow Fund shall be used to pay interest on and principal of the Refunded 1993 Bonds, as and when due to and including June 15, 2003 and to redeem and pay on June 15, 2003, at a redemption price of 100%, the principal of the Refunded 1993 Bonds then outstanding plus accrued interest to the redemption date.

The following sets forth the refunded 1993 Bonds (\$565,645,000 aggregate amount) which remain advance refunded through the 1993 Bonds Escrow Fund:

Maturing June 15	Par Amount
2003 and thereafter	565,645,000*

* Includes redemption of all bonds maturing 2003 through 2023.

At June 30, 2002, the 1993 Bonds Escrow Fund held cash and United States Treasury securities (at market) in the amount of \$574,787,510 for the previously stated purpose. The maturing principal and interest on the securities held in escrow have been verified as being sufficient to provide for the payment of the interest and redemption prices of the Refunded 1993 Bonds on their scheduled redemption dates.

6. DEFINED BENEFIT PENSION PLAN

Plan Description—The Authority covers all full-time employees in the State Employees’ Retirement System (the “System”) which was established as of June 27, 1923, under the provisions of Public Law 858, No. 331. The System is the administrator of a cost-sharing, multiple-employer defined

benefit retirement system established by the Commonwealth to provide pension benefits for employees of state government and certain independent agencies.

The System is a component unit of the Commonwealth and is included in the Commonwealth's financial report as a pension trust fund. The System also issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Commonwealth of Pennsylvania, State Employees' Retirement Board, 30 North Third Street, P.O. Box 1147, Harrisburg, Pennsylvania 17108.

The System provides retirement, death and disability benefits. Retirement benefits vest after five years of credited service. Employees who retire with three years of service at age 60, or with 35 years of service if under age 60, are entitled to a normal annual retirement benefit. Members of the General Assembly and certain employees classified in hazardous duty positions can retire with full benefits at age 50, with at least three years of service. The general annual benefit is 2% of the member's highest three-year annual average salary times years of service times class of service multiplier. The Authority's total and annual covered payroll for the year ended June 30, 2002 was \$535,430.

Contributions Required—Covered employees are required to contribute to the System at a rate of 6.25% of their gross pay. The contributions are recorded in an individually identified account which is also credited with interest, calculated quarterly to yield 4% per annum, as mandated by statute. Accumulated employee contributions and credited interest vest immediately and are returned to the employee upon termination of service if the employee is not eligible for other benefits.

Participating agency contributions are also mandated by statute and are based upon an actuarially determined percentage of gross pay that is necessary to provide the System with assets sufficient to meet the benefits to be paid to System participants.

The Authority's contributions to the System for the years ended June 30, 2002, 2001 and 2000 were \$0, \$3,587, and \$23,745, respectively, and equal the required contribution for each year.

According to the retirement code, all obligations of the System will be assumed by the Commonwealth should the System terminate.

7. LEASE OBLIGATIONS

The Authority is obligated under various operating leases, including a lease for office space through December 31, 2007. The following is a schedule of all minimum lease payments:

Fiscal Year Ending June 30	Amount
2003	\$ 80,109
2004	76,725
2005	76,725
2006	75,443
2007	75,443
2008	<u>37,722</u>
	<u>\$ 422,167</u>

Rental expense for the year ended June 30, 2002 was \$77,345.
